

## GovInEd Actor & Network-Maps

2<sup>nd</sup> Newsletter, January 2024

### The Actor & Network Maps are out!

The GovInEd project partners announce that the actor & network maps of the four regions are officially out!

These derive from a multilevel network analyses of international governance structures and practices in inclusive education reforms conducted in the four project regions: Baden-Württemberg (Germany), Catalonia (Spain), South Tyrol (Italy), and Styria (Austria). All relevant actors and stakeholders in the context of inclusive education transformation processes were involved. The insights gained help identify relevant factors for success in the implementation of inclusive education reforms based on the international comparison. The maps provide an overview of the structures, the actor constellations and the coordination infrastructure in the different regions/ countries.

The text descriptions of the maps increase the accessibility of the content and the glossary entry descriptions, in the form of mouseover and side texts, provide comprehensive yet concise information about the actors, their role in the implementation of inclusive education and their mutual relationships.

### Link to the Actor & Network Maps

You are warmly invited to explore the Actor & Network Maps to get to know the education regions and their actors and interdependencies better by visiting the following section of the project website:
